Externally

To the front of the house there is a traditional pillared stone wall with entrance gate, small front lawn and paving. To the left side there is an in & out double gated driveway providing ample hardstanding off road parking space for several cars and where access leads on to the land/camping area. Adjoining the house to the side is an outside toilet and store shed, adjoining to the rear is a further stone built storage shed. To the rear is a detached workshop/garage and good size garden laid mainly to lawn, being private and bordered by mature hedgerows and trees. A gateway continues to the far side plot which enjoys its own separate gated driveway from the road and where there is a well kept static caravan. This has been used for holiday letting, but the plot has great potential as possibly a building plot, subject to planning permission. Around the property are open fields and rolling countryside, with no immediate neighbours, plus lovely far reaching rural views are enjoyed.

Land

Gated access from the in & out driveway opens onto a hardstanding road which leads up to 5 x electric motorhome/caravan pitches and a further static caravan as the campsite shower and toilet. To the side of here are large parkland style open areas of well kept grassland, used for pitching tents, plus there is a fenced paddock currently used as a dog exercise area. The grounds could also be easily be used for keeping a small number of animals, ponies etc or for growing produce, poly tunnels etc. Please note, we recommend checking if any planning might be required for your intended purpose. The campsite is licensed under the Camping & Caravanning Club for 5 caravans/motorhomes and 10 tents which makes a total of 15 pitches and a total of 10 hookups.

Campsite

The campsite is a small lifestyle business run by the current owner. It does not form part of this sale. The business accounts will not be released and it would be up to the next owner to decide if they wish to continue a camping business at the property. No planning is currently required for a camping business due to an exemption and is certificated by the Camping & Caravanning club, issued under section 269(6) of the 1936 Act.
