 Exclusive Launch of Manor Farm – A
 Unique Collection of Nine Bespoke
 Homes, 2,3,4 Bedrooms, Combining
 Character, Craftsmanship and
 Contemporary Living.

Introduction

Manor Farm is an exclusive gated development comprising just nine bespoke homes, thoughtfully designed to combine character, craftsmanship and modern living.

Offering a unique collection of two, three and four-bedroom residences, including eight two-storey homes and one single-storey dwelling, each property has been finished to an exceptional standard with carefully selected materials and high-quality specifications throughout.

Set within a private courtyard setting behind a electric sliding gate, the development enjoys a sense of privacy and exclusivity whilst benefiting from the charm and convenience of village life. The homes have been individually designed to complement their surroundings, creating a distinctive collection of properties unlike a traditional new-build development.

Private parking, landscaped surroundings and a carefully considered layout combine to create a development that offers both practicality and an exceptional place to call home.

Alongside the character and craftsmanship on offer, each home has been designed with modern energy efficiency in mind, benefiting from air source heat pump technology and infrastructure already in place for future solar energy integration.
