### How does Shared Ownership work?

Shared Ownership is a government scheme that offers you the chance to buy a share of a property from a housing association, a non-profit-making body that provides homes. Because you only own a part of the property, you can buy it with a smaller deposit and mortgage.

A smaller mortgage means smaller repayments but you'll also need to pay:

- rent on the share of the property you do not yet own
- monthly service charges

Shared Ownership homes can be new builds, existing properties, houses or flats. All Shared Ownership properties are leasehold, even houses.

### Shared ownership information

Shared ownership is a part buy part rent property from a registered landlord. You purchase a share with the help of a mortgage based on your affordability.

Example of costs based on a Share of: 40 %

Open Market Value: £270,000  
 Rent per month: £402.26  
 Service Charges per month: £25.52  
 Buildings insurance per month: £17.31

The more you buy the lower your rent will be. These costs will increase each year with inflation.

### Eligibility Criteria

To be eligible for Shared Ownership you need to:

- be a first-time buyer, an existing shared ownership homeowner, or a former homeowner who can't afford to buy now
- be over 18 years old
- have an annual household income of less than £80,000 (£90,000 in London).

If you wish to buy one of these properties we need to assess your eligibility for shared ownership. For this we need to see:

- Proof of ID
- Proof of address

You will also be required to complete an application form and an affordability calculation.
