This map displays nearby coal mine entrances and their classifications.

Mine Entry

- ✕ Adit
- ✕ Gutter Pit
- ✕ Shaft

The Coal Authority has records of over 175,000 mine entries within the UK captured in the National Coal Mining database, derived from sources including abandonment plans, geological and topographical plans.

Coal mining activity is recorded as far back as the 13th century, but prior to 1872 there was no requirement to deposit abandonment plans. It is therefore believed there may be many unrecorded mine entries of which the Authority has no information or knowledge. These entries do not, therefore, appear within the Authority's national dataset as shown on this map.

This map displays nearby official conservation areas. Every local authority in England has at least one conservation area. Most are designated by the Council as the local planning authority, though Historic England and the Secretary of State also have the power to create them.

This map displays the noise levels from nearby network rail and HS1 railway routes that affect this property...

Rail Noise Data

This data indicates the level of noise according to the strategic noise mapping of rail sources within areas with a population of at least 100,000 people (agglomerations) and along Network Rail and HS1 traffic routes.

The data indicates the annual average noise levels for the 16-hour period between 0700 - 2300.

Noise levels are modelled on a 10m grid at a receptor height of 4m above ground, polygons are then produced by merging neighbouring cells within the following noise classes:

5		75.0+ dB	
4		70.0-74.9 dB	
3		65.0-69.9 dB	
2		60.0-64.9 dB	
1		55.0-59.9 dB	

Flood Risk

Rivers & Seas - Flood Risk

This map shows the chance of flooding from rivers and / or the sea, taking into account flood defences and their condition.

Risk Rating: Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

- High Risk** - an area which has a chance of flooding of greater than 1 in 30 (3.3%) in any one year.
- Medium Risk** - an area which has a chance of flooding of greater than 1 in 100 (1.0%) in any one year.
- Low Risk** - an area which has a chance of flooding of greater than 1 in 1000 (0.1%) in any one year.
- Very Low Risk** - an area in which the risk is below 1 in 1000 (0.1%) in any one year.

Chance of flooding to the following depths at this property:

Flood Risk

Rivers & Seas - Climate Change

This map shows the future chance of flooding from rivers and / or the sea **between 2036 and 2069**, taking into account flood defences and their condition. The government climate change models cannot predict exactly when the chance of flooding will go up. It could happen at any time during the time period.

Risk Rating: Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

Masts & Pylons

Key:

-  Power Pylons
-  Communication Masts

What is Radon?

Radon is a natural radioactive gas, which enters buildings from the ground. Exposure to high concentrations increases the risk of lung cancer. The UK Health Security Agency (UKHSA) recommends that radon levels should be reduced in homes where the annual average is at or above 200 becquerels per cubic metre (200 Bq/m³).

The data indicates the level of noise according to strategic noise sources across all traffic routes. This indicates a 25 house annual average noise level with separate weightings for the evening and the night periods.

- 75.0+ dB
- 70.0-74.9 dB
- 65.0-69.9 dB
- 60.0-64.9 dB

Martin & Co Mansfield

We are proud to have been serving the communities of Mansfield and the surrounding areas of Ashfield, Rainworth and Sutton-in-Ashfield, since 2002, providing specialist advice to buyers, sellers, tenants, and investors alike.

Managing Director, Stuart Hurst, was born and brought up in Mansfield, his passion for the property industry, along with the skilled professionalism of his trusted team, have made Martin & Co, Mansfield, the agent of choice across the local area.

Located off the bustling Market Square, the Martin & Co Mansfield office is close to all local amenities. With our wealth of expertise and on-the-ground knowledge, our team provide a service that is tailored to suit every need.

Delivering a friendly and supportive service makes us truly stand out from the crowd. Whether you have a house to sell or you are looking for a property to rent around Mansfield, our team is always on hand to find the best solution to suit your individual needs, so please do get in touch.

Testimonial 1

I just brought my first property through Martin & Co. Sarah show true professionalism and would keep me updated regularly. The communication and support was highly appreciated and it helped to make the the process easy to understand. I would highly recommend using them when moving or buying

Testimonial 2

They made the process so straightforward and simple. They demonstrated such professionalism and was ready to answer any question I had.
Would definitely recommend based on the excellent service I received.
Well done to the whole team

Testimonial 3

By far the best and easiest lettings company to deal with in the shire, had the blessing of martin & co twice now and twice they went above and beyond. The work they put in to get me and my family into a property as quick as possible is second to none, absolutely flat out from viewing to moving in was 6 days!!!

Testimonial 4

It was really smooth journey from start to finish . Even when I had difficulty on my side. They exercised patience and now everything is successful.
