APPLICATION:	25/00637/FUL
LOCATION:	73 Dark Lane, Romsley, Worcestershire, B62 0PJ
PROPOSAL:	Demolition of existing bungalow and erection of a detached two storey house.
DECISION DATE:	11th September 2025

Bromsgrove District Council as the Local Planning Authority grants planning permission in accordance with the Town and Country Planning Act 1990 and The Town and Country Planning (Development Management Procedure) (England) Order 2015 (as amended) for the proposal described above. This permission is subject to conditions which must be complied with and are set out below:

Conditions

- 1) The development hereby approved must be begun not later than the expiration of three years with the date of the grant of this permission.

Reason: In accordance with the requirements of Section 91(1) of the Town and Country Planning Act 1990 as amended by Section 51 of the Planning and Compulsory Purchase Act 2004.

- 2) The development hereby approved shall be carried out in accordance with the following plans and drawings:

- Site location plan, drawing no: 1886-02, rev B, received July 2025
- Proposed elevations and floor plans, drawing no: 1886-02, rev B, received July 2025
- Design and Access Statement, received July 2025.

Reason: To provide certainty to the extent of the development hereby approved in the interests of proper planning.

- 3) Prior to their first installation, details of the form, colour and finish of the materials to be used externally on the walls and roofs shall be submitted to and approved in writing by the Local Planning Authority. The development shall then be carried out in accordance with the approved details.

Reason: To ensure that the development is satisfactory in appearance and to safeguard the visual amenities of the area.

- 4) No works in connection with site drainage shall commence until a scheme for surface water drainage has been submitted to, and approved in writing by the Local Planning Authority. This scheme shall be indicated on a drainage plan. If possible infiltration techniques are to be used and the plan shall include the details and results of field percolation tests. If infiltration drainage is not possible on this site, an alternative method of surface water disposal should be submitted for approval. There shall be no increase in runoff from the site compared to the pre-development (greenfield) situation up to the 1 in 100 year event plus an allowance for climate change. If a connection to a third party asset or sewer is proposed, then evidence shall be submitted of the in principle approval of the asset owner for this connection. The drainage scheme shall be implemented prior to the first use of the development and thereafter maintained.

Reason: To ensure that the site does not increase local flood risk.

- 5) The development hereby approved shall not be occupied until full details of both hard and soft landscaping works, including clarification of the species and specification of plant stock, have been submitted to and approved in writing by the Local Planning Authority and these works shall be carried out as approved. Any trees or plants which within a period of 5 years from the completion of the development die, are removed or become seriously damaged or diseased shall be replaced in the next planting season with others of similar sizes or species unless the local planning authority gives written approval to any variation.

Reason: To enhance the appearance of the development in the interest of the visual amenities of the area and to provide ecological and biodiversity benefits.

- 6) The development hereby approved shall not be occupied until an area has been laid out within the curtilage of the dwelling for the parking of 3 cars at a gradient not exceeding 1 in 8. This area shall thereafter be retained for the purpose of parking a vehicle only.

Reason: In the interests of highway safety and to ensure the free flow of traffic using the adjoining highway.

- 7) The development hereby approved shall not be first occupied until sheltered, safe, secure and accessible cycle parking to comply with the Council's adopted Highway Design Guide has been provided in accordance with the details which shall first be submitted to and approved in writing by the Local Planning Authority and thereafter the approved cycle parking shall be kept available for the parking of bicycles only.

Reason: To comply with the Council's parking standards.
