This recently built, Georgian-inspired family residence offers over 8,000 sq ft of modern living space within the exclusive Avon Castle Estate.

Designed for both functionality and impact, the home is situated on a private, level 1.3-acre plot. The main home features four spacious double bedrooms, while a separate one-bedroom annex provides additional flexibility for guests.

The property balances grand entertaining with practical daily life. It features a private, indoor heated pool and a layout designed for both entertaining and comfortable family living.

Set behind electric gates, an expansive in-and-out driveway provides ample parking and leads to a stunning family home that feels entirely secluded from the outside world.

The entrance hall is a real feature of this property defined by its symmetry, featuring twin quartz staircases with iron handrails that frame a direct view through to the gardens. Polished Porcelanosa tiles and high ceilings create an immediate sense of scale, while a central crystal chandelier adds a refined touch to the foyer.

The primary living space is an impressive open-plan hub that merges the kitchen, dining, and family areas. Large bi-folding doors connect this space to the outdoors, ensuring the garden is a constant backdrop. In the family area, an 80" smart TV and electric fireplace are integrated into a polished plaster feature wall, offering a sleek focal point. The kitchen is designed for high-end catering and socialising, anchored by quartz worktops and LED accents. It is equipped with a Bora induction hob, twin Neff ovens, and a Quooker system for instant boiling and sparkling water. Additions include a wine cooler, food waste disposal, and specialized produce-fresh drawers, while a hidden pantry and utility wing house secondary appliances and laundry facilities to keep the main kitchen clutter-free.

Versatile reception rooms branch off the main hub, including a games room partitioned by black Crittall doors and a formal sitting room with its own flame-effect fire. This sitting room opens into a dedicated hobbies area, allowing for privacy without feeling isolated. For those working from home, a private office is positioned near the front entrance alongside a guest cloakroom. The leisure wing, accessed via a secure pin-coded door, contains a mirrored home gym and a heated indoor pool with an electric cover. In warmer months, bi-fold doors transform this area into an indoor-outdoor space.

The upper level is built with solid concrete floors. Each of the four double bedrooms is a complete suite, featuring its own dressing area and private bathroom. The master suite is particularly impressive, spanning the full width of the rear elevation with garden views and a luxury ensuite fitted with a freestanding bath and walk-in shower.

Separate from the main sleeping quarters, a self-contained one-bedroom annex is located above the triple garage. Accessed via its own internal staircase, it provides an ideal setup for guests or long-term residents.

The triple garage is well-equipped for modern requirements, featuring two electric vehicle charging points and a gardeners WC.

Externally, the 1.3-acre grounds are primarily level lawn, offering a private and versatile space that functions as either a secure play area or a blank canvas for further landscaping. There is also a large patio area perfect for outdoor entertaining.
