A handsome double-fronted period village residence displaying attractive early Georgian influences, occupying a delightful position within the heart of Collingham's Conservation Area. Offering extensive and highly versatile accommodation extending to over two floors, this characterful home combines original charm with practical family living and now presents an exciting opportunity for a purchaser to personalise and further enhance the property to their own tastes.

The accommodation begins with an entrance vestibule leading into the welcoming sitting room, a room full of character featuring exposed ceiling beams and an attractive fireplace as its focal point. A second reception room to the front elevation provides an excellent family room, playroom or snug and also benefits from exposed beams that reflect the property's period heritage.

Beyond lies a useful inner lobby with access to a deep cellar and leading through to the spacious family kitchen. Fitted with an extensive range of units complemented by granite work surfaces, terracotta tiled flooring and underfloor heating, the kitchen offers ample space for day-to-day family life. Adjoining the kitchen is a practical utility room together with a ground floor shower room.

To the rear of the property, a substantial extension has created a superb dining room with French doors opening onto the garden, alongside an impressive lounge featuring a vaulted ceiling, an abundance of natural light and a multi-fuel stove. This wonderful living space enjoys direct views over the south-facing gardens and provides an ideal setting for both entertaining and family gatherings.

A rear hallway leads to the principal bedroom suite comprising a generous double bedroom and en suite bathroom. To the first floor are three further well-proportioned bedrooms together with the family bathroom, providing flexible accommodation for growing families, home working or visiting guests.

Externally, the property enjoys an attractive forecourt frontage, whilst double gates provide access to the delightful enclosed rear gardens. Predominantly

south-facing, the mature gardens offer a high degree of privacy and provide a wonderful outdoor environment for both relaxation and family enjoyment.

The property benefits from gas-fired central heating and double glazing throughout and offers buyers the rare opportunity to acquire a substantial period home in one of the village's most sought-after locations, with scope to update and modernise in certain areas to create a truly exceptional family residence.

Situated approximately six miles west of Newark-on-Trent, Collingham is one of Nottinghamshire's most popular and well-served villages, combining a thriving community atmosphere with excellent transport connections and a wide range of everyday amenities.

The village offers an impressive selection of facilities including a Co-op supermarket, convenience stores, post office, butcher, pharmacy, medical centre, dental practice, library, public houses and a highly regarded primary school. A variety of clubs, societies and sporting facilities contribute to a vibrant community spirit, making Collingham particularly appealing to families, professionals, and retirees alike.

For commuters, Collingham benefits from its own railway station providing regular services to Newark, Lincoln, and Nottingham, whilst the nearby A46 offers excellent road links to Newark, Lincoln and the wider East Midlands. Newark North Gate station, with direct services to London King's Cross in around 75 minutes, is only a short drive away.

The surrounding countryside provides numerous opportunities for walking, cycling and outdoor recreation, whilst the nearby River Trent and attractive rural landscape add to the village's enduring appeal.

Collingham successfully combines the convenience of a well-equipped village with the character and sense of community often associated with smaller rural settlements. With excellent amenities, strong transport links and attractive surrounding countryside, it remains one of the most desirable village locations in the Newark area.

This period house is constructed with brick elevations and part slate and part pantiled roof. The property has a combination gas fired central heating boiler and uPVC double glazed windows throughout. The living accommodation, which is laid out over two levels, can be described in more detail as follows:

GROUND FLOOR

PANELLED ENTRANCE DOOR

With brass furniture.

ENTRANCE VESTIBULE

With leaded light stained door to the sitting room and a panelled door to the front family room.
